

SharePoint To-Grow

after-implementation care

Follow up to ensure that your investment in SharePoint delivers the value it's capable of.

Recession Proof!

Implementation success is all about follow-through.

Most think that systems are about installation, configuration and customisation. bSOLVe believes differently, with our focus being firstly on planning and strategy, but also crucially on everything that comes after the last file has been uploaded. SharePoint To-Grow ensures that the momentum around your intranet is kept at a maximum after implementation, but without all the unexpected costs at hourly rates. It's a pre-determined, monthly service package that's designed for easy consumption and maximum impact. Here's what you get:

	Basic	Pro	Enterprise
Professional business analysis, advice and strategy	1	2	4
Configuration, testing and training	2	4	8
Support and SharePoint administration	2	4	8
	5	10	20

(The above break-down is an example of how your hours could be utilised out of the total bucket available to you)

The service package is designed to fit your pocket without strain. Our SharePoint Administration and Configuration specialists have created an offering to help the people in your organisation grow the SharePoint solution, improve productivity and realise the advantages of an extendable platform for future use - all in a package that you can budget for, with tangible deliverables and demonstratable benefit.

Where do I order?

bSOLVe sits down with you to tailor the strategy to your business, after which we proceed with configuration and support to grow the solution as defined in the strategy session. Because of the pre-determined nature of what's delivered, we are able to keep your service within scope, eliminating unnecessary costs and hassles. If you think that you may be able to benefit from this convenient take away approach, please visit www.bsolve.co.za/sharepoint, or contact us via one of the channels below.

* Please note that split between hours may differ between individual service agreements. Additional hours are available as a Side Order to the base.
